

Electric Meter Operations

Customer Surge Arrester & Protection

What Is a Surge Protector?

A surge protector is a protective device designed to limit surge voltage, helping prevent damage to electrical equipment and reduce service disruptions caused by power surges.

Installation

If a customer purchases an **approved surge protector designed for socket installation**, the **City Electric Department will install it at no cost**.

- Surge Arresters may be installed on **both overhead and underground services**.
- **Important:** Customers must contact **Meter Operations** *before* purchasing a surge protector to ensure the device is approved.

Approved Devices

Manufacturer	Model	Mounting Style
Eaton	CHSPT2ULTRA-1	External Surface
TESCO	TES 240 MSA	Meter Socket Adapter
Square D	HEPD80	External Knockout
Bad Wolf	SP240V100KA	Internal or External Surface

Purchase Information:

Surge protectors may be purchased from electrical supply retailers such as **Hughes Supply, Graybar, Home Depot, Lowes, or Amazon**.

- Typical cost ranges from **\$100** and higher, depending on the manufacturer and model.

CONTACT PERSON:

For more information and to schedule an installation please call the Meter Operations Foreman: Nathan Lee @ 850-694-3974 or Les Smith @ 850-933-3060.
